DETAILED ACTION

Allowable Subject Matter

1. Claims 1-9 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record, either singly or in combination, fails to disclose the limitations of:

forming a drift region adjacent at least a portion of the body region, using a dopant;

forming a field oxide structure adjacent a portion of the drift region and a portion of a drain region, wherein the field oxide structure is located between a gate electrode region and the drain region and is spaced apart from the gate electrode region;

wherein atoms of the dopant accumulate adjacent a portion of the field oxide structure forming an intermediate-doped region adjacent a portion of the field oxide structure. Body, drift, intermediate-doped and drain regions are different regions, for example the drift region is not the same region as intermediate-doped region.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ron E. Pompey whose telephone number is (571) 272-1680. The examiner can normally be reached on compressed.

Art Unit: 2812
